

Keyhole Cube

Exchanger: Rick Eason

Address: 595 Forest Ave. Orono, ME 04473-3008 USA

Contact: 207-941-9727, rick@eason.org

Web: www.mechanicalpuzzles.org

Objective: Make a cube with the eight pieces.

Puzzle type: 3D put together

Materials: Maple and screws

Cube dimension: 2-3/4 inches on a side

Designed and made by: Rick Eason

Solutions

There are nine solutions that don't require any twisting motion. Each of these is shown here. In each case assemble the two halves first and then fit these two halves together.
